A Summary of Stakeholder Handwritten Comments Captured from Collected Worksheets at the 11/3/06 Workshop

	Handwritten Comments on "Feedback on Potential Automation Opportunities" Worksheet		
1	Priority Rank 4 for Electronic vs. Hardcopy Noticing with the handwritten comment "to the exclusion of Hard Copy"		
2	Priority Rank 2 for Electronic vs. Hardcopy Noticing with the handwritten comments "Need paper back up" and " one or the other, not both"		
3	Priority Rank 1 for Ability to use the GIS to determine lat/long locations with handwritten commet " want a 'translator' function to go to lat/long"	Priority Rank 2 for Ability to use GIS to identify fully appropriated streams with the handwritten comment "need info on adjudicated streams"	
4	Priority Rank 1 for Ability to use the GIS to determine lat/long locations with handwritten comment "use lat/long in decimal degress"	Priority Rank 3 for Ability to use GIS to identify fully appropriated streams with handwritten comment "indicate season"	
5	Priority Rank 2 for Ability to use the GIS to determine lat/long locations with the handwritten comment "GPS TR on Map place of use"		
6	Priority Rank 5 for Electronic vs. Hardcopy Noticing with handwritten comment "Exclusion of Hardcopy" and "Nice to Have Along with Hard Copy"	Priority Rank 3 for Ability to use GIS to determine lat/long with handwritten comment "Cal. Coor. Also" (California coordinates)	Priority Rank 1 for Online access to the current status of application, petition, etc. processing with handwritten comment "Will require diligence by Division staff to make useful."
7	Comment on top of page "need POD info, too"	Priority Rank 4 for Electronic vs. Hardcopy Noticing with handwritten comment "to exclusion of hardcopy -one or the other."	Priority Rank 3 for Ability to use the GIS to determine lat/long locations with handwritten comment "currently cal coord. - USGS quad 1/4 - 1/4 sections"
8	Priority Rank 1 for Ability to use the GIS to identify fully appropriated streams with handwritten comment "+ ability to id u/s and d/s PODs is important" (upstream and downstream)	Comment at bottom of the page: "#1 priority can't lose data #2 POD - Utah used conversion"	Comments at bottom of page: "Adjudicated rights not in db now" and " may need to add if under a water master."
9	Priority Rank 2 for Electronic Self Monitoring with handwritten comment "and public access to same."		
10	Priority Rank 5 for Electronic vs. Hardcopy Noticing with handwritten comment "(one or the other not both)"		
11	Priority Rank 3 for Ability to use the GIS to identify fully appropriated streams with handwritten comment "helpful to link to order setting FAS"		

A Summary of Stakeholder Handwritten Comments Captured from Collected Worksheets at the 11/3/06 Workshop

	Handwritten Comments on "Preferred Method to Drill Down on (Locate) Water Rights Information" Worksheet
1	Priority Rank 3 for By Political Boundaries (County, township, etc.) with handwritten comment "consider link to lat/long"
2	Comment on the bottom of the page: "would like ability to download shapefiles of data"
3	Priority Rank 2 for "By Water Right type and/or issue date range" and Priority Rank 1 for "Interactive Web Map using a POD layer overlaid on Geographic Boundaries" with a handdrawn double sided arrow pointing to each and the handwritten comment "maybe combine" and "add a date range"
4	Priority Rank 3 for "By Water Right type, and/or issue date range" with handwritten comment "riparian pre-1914"
5	Priority Rank 4 for "By Water Right type, and/or issue date range" with handwritten comment "by right holder would be #1" with an arrow poinitng to another comment "similar to current web non-GIS system"

A Summary of Stakeholder Handwritten Comments Captured from Collected Worksheets at the 11/3/06 Workshop

	Handwritten Comments on "Feedback on Electronic Submittal of Self Monitoring Reports" Worksheet
1	Priority Rank 1 for "Progress Report by Permittee," 2 for "Report of Licensee," and 3 for "Supplemental Statement of Water Diversion and Use" with the handwritten comment "All this depends on the flexibility of system and ability to fully describe use for complex projects and use."
2	Comment on the bottom of the page: "I want electronic access to these public records."
3	Comment on the bottom of the page: "Comment section needs to be much larger than in previous version. Allow Attachments. Online form needs to be very flexible."
